SUMMARY

I am a dedicated Python and Django Developer with hands-on experience in backend development, RESTful API design, and PostgreSQL database management. I am skilled at building scalable web applications, collaborating across teams, and creating clean, efficient code. I am eager to contribute to innovative software projects and continuously enhance my skillset.

EXPERIENCE

Python Developer

AppUnik

📅 01/2026 📍 Ahmedabad, India

A tech firm delivering enterprise web solutions

- Built RESTful APIs using Python and Django to support core business workflows
- Planned and managed PostgreSQL database schemas for efficient data storage and processing
- Executed core backend functionalities including user data management and API integration
- Ensured smooth communication between frontend and backend systems

Backend Intern

AppUnik

📅 09/2025 - 12/2025 📍 Ahmedabad, India

A tech firm delivering enterprise web solutions

- Applied PostgreSQL for database operations including querying and schema management
- Adopted Git and GitHub for version control - branching, commits, and pull requests
- Understood project workflows involving main and development branches
- Configured application environments using .env files for secure credential management

Software Intern

Qspider

📅 03/2025 - 09/2025 📍 Ahmedabad, India

Internship focused on Python, SQL, Django, Manual Testing

- Strengthened Python programming skills through hands-on problem-solving exercises
- Authored multiple SQL queries for data retrieval and manipulation across relational databases
- Learned manual testing concepts including test case writing, testing types, and SDLC/STLC models
- Enhanced communication and interpersonal skills through structured internship activities

EDUCATION

Master of Computer Applications (MCA)

Rajiv Gandhi Proudhyogiki Vishwavidyalaya

📅 07/2023 - 05/2025 📍 Bhopal

Bachelor of Science (BSc)

Barkatullah University

📅 07/2020 - 05/2023 📍 Bhopal

SKILLS

<u>Python</u>	<u>Django</u>	<u>Gmail</u>	
<u>RESTful API</u>		<u>PostgreSQL</u>	<u>REST</u>
<u>GitHub</u>	<u>SQL</u>	<u>Manual Testing</u>	
<u>RDBMS</u>	<u>SDLC</u>	<u>STLC</u>	<u>Flask</u>
<u>JavaScript</u>	<u>React</u>	<u>HTML</u>	<u>CSS</u>
<u>Git</u>			

PROJECTS

Flowcreator

📅 11/2025 - 02/2026 📍 Ahmedabad, India

An AI-powered platform for generating captions and images for social media

- Created an AI-powered platform for generating captions and images across multiple social media platforms
- Incorporated caption generation with prompt enhancement and tone selection features
- Engineered AI-based image generation functionality based on user inputs
- Architected scheduling and publishing workflows for automated content posting
- Established SaaS-based architecture with role-based access control and subscription billing

Meditation App

📅 03/2026 📍 Ahmedabad, India

A meditation app for user management and session tracking

- Engineered RESTful APIs using Django for user management and meditation session tracking
- Structured and managed PostgreSQL database for storing user profiles and session records
- Applied backend features including session completion tracking and user activity management
- Handled backend logic for storing and updating user-related data efficiently
- Ensured seamless frontend-backend communication through structured, well-documented APIs
